ALPHATRON
Marine |

About the organization

Alphatron Marine Iberia is JRC's 100% owned subsidiary based in Madrid, Spain. Responsible for service, sales, technical support and training, Alphatron Marine Iberia is your first stop for all your JRC and complementary brands service requests in Spain (including the Canary Islands), Portugal and Africa.

Highlights |

- 100% JRC owned
- 49 depots along the Spanish, Portuguese and African coasts
- 25 JRC certified service partners
- 165 certified engineers
- 15+ Class Society approvals

Why choose us?

Alphatron Marine Iberia has a wide variety of resources available to tackle your service needs in the most efficient way. Depending on the complexity of your service, vessel's location and technicians' availability, we choose the best service solution available in our area of responsibility. This includes our own technical staff for those calls where FTF is critical for vessel's operation. Our target is to satisfy your service needs freeing you from the extra work load coming from follow-up calls and confirmation emails typical when dealing with multiple sources. As a JRC/Alphatron branch, we offer manufacturer granted quality including

JRC's official warranty service, but also a multibrand approach coming from the service partners we cooperate with. We have the best JRC factory trained engineers available 24/7 and JRC's First Aid Kit (FAK) containing a full set of spares covering the widest range of old and new JRC products. As a result, we are proud to present the highest JRC FTF scores in our area matched with competitive rates for annual certifications on Radio and APT surveys. We know JRC service like nobody else.
